## NEWS RELEASE

### MONMOUTH RUBBER RECEIVES UL LISTING FOR UL 50, UL 157 AND UL 508

Monmouth Rubber & Plastics has received UL listing for its full series of Neoprene/EPDM DK Series under **UL listing #JMLU2 MH10200**. The listing covers Durafoam™ DK1111LD, DK2121MD, DK3131MD, DK4141HD, and DK5151HD.

Monmouth Rubber's General Manager and Technical Director, John M. Bonforte, Sr. states: "The full range for all 5 hardnesses to ASTM compression deflection will allow gasket cutters and fabricators to offer a complete range of closed cell solutions to customer needs. The **Durafoam™ DK Series**, we believe, is the only material to have a UL listing that covers all 5 ASTM hardnesses for **UL 50** – Standard for safety for enclosures for electrical equipment; **UL 157** – Standard for safety for gaskets and seals; **UL 508** – Standard for safety for industrial control equipment, and **UL 94** – Standard for safety for test for flammability of plastic materials; giving the design engineer broad latitude in gasket applications."

The Durafoam™ DK Series is the proprietary technology of Monmouth Rubber & Plastics for its kinetically grafted blends. The Durafoam™ DK Series also carries the full UL 94 HF1 listing for flame; and therefore offers the fabricator a one-stop shop for flame resistance, ozone resistance, and oil resistance at a competitive price. **The Durafoam™ DK Series is available in buns, sheets, rolls, and tape.** Monmouth Rubber's products are available at strategic locations worldwide.

**Samples and additional technical information are available** by contacting either Carol McGuire, Customer Service, Phone: 800-375-1960 Ext. 13, Email: [sales@monmouthrubber.com](mailto:sales@monmouthrubber.com) or John M. Bonforte, Sr. General Manager and Technical Director, Phone: 800-375-1960 Ext. 12, Email: [johnsr@monmouthrubber.com](mailto:johnsr@monmouthrubber.com)
